Chapter 6: Marsha

Chapter 6 is the only Chapter without fornication points. Originally the second part of the final scene was going to be an alt scenario, but I really wanted everyone to see it so here is the guide for Chapter VI.

You start Chapter 6 in your bedroom. Head upstairs to Lilly's room to be met with an H scene. Leave her room and head to Marsha's, play out her scene and head downstairs to trigger a scene with Scarlett. Then, go out the front door to find Marsha in the driveway, during this scene you have the option to go to Sharon's, you can refuse it and go straight to "the store" with Marsha, or you can play out a scene at Sharon's first (assuming you are playing on the extra content version.)

Once you are home from "the store" head to Marsha's bedroom, once that scene plays out, head back downstairs to find Marsha sobbing. Play through the H scene.

Once you are upstairs after that scene, head to your bedroom to wait until night time and play out the rest of the chapter.

Chapter 7: The gift of life.

You are met with a surprise decision at the beginning of CH7, to get a fornication point, click the bottom one. 😊

Once the intro ends and the chapter starts, head to Scarlett's room. Choose to have sex with her to gain a fornication point.

Next, go down to the gym to find Marsha working out, after that, go upstairs to the bathroom, choose to slap her ass back and also to jerk off to her for two fornication points.

Next, go to Marshas room, when you are done there, head back into the upstairs bathroom.

Slap marshas ass again and then cum inside of her ass to get two more fornication points.

Next, go trigger a Marsha scene outside.

When you are done there, either go to the poker room if you are playing the extra content version, or go straight to Marshas room to trigger the final scenes.

At the very last sex scene, if you choose to jackhammer Marsha, it will require 7 fornication points.

Chapter 8: The Finally.

During the intro scene, when asked to slap Scarlett's butt or caress Lilly, choose slap Scarlett. 😊

1: Go to Marsha's room

2: Go to Scarlett's room.

3: Go to Sharon's house.

4: Go outside on your porch. Choose eat her out and cum inside of her.

5: Go to the kitchen. Choose to fondle her ass and then choose the options in all caps lol. 😊

6: Go downstairs to trigger a scene, choose I wouldn't dream of it, then choose get carried away."

7: If you are playing the regular version, the rather large finally should trigger from here.

8: If you are playing the extra content version, go to the hot tub room to see an extra content scene with 70 images.

9: During the finally, if you have over 10 fornication points, you can fist Marsha.

10: This is a minor spoiler here but: After the finally plays out, go to the front door.

11: I left a small note at the end there, after the scene at the hospital. Also, there is a small preview of one of the younger characters for the next game in the end donation screen, so look out for that.

Thank you for playing and I hope you got some enjoyment out of this game! 😊
